I. Corporate & Global

Biden, Morning Joe, and the Progressives claim the MAGA movement is fascist and the most extreme and dangerous political organization in America today. No, that would be the Biden administration and the Progressive Party. Wikidiff.com (autocracy vs fascism) defines autocracy as a form of government in which unlimited power held is held by a single individual and defines fascism as a political regime with totalitarian aspirations, ideologically based on a relationship between business and the centralized government, where elite corporations join with government forces to control the marketplace and repress criticism or opposition; a leader cult exalting the state and/or religion above individual rights.

Progressives constantly try to project their ideology onto the right by comparing conservatives to Hitler and Mussolini. The fact is that the conservative right champions the other end of the spectrum: individual rights and liberty. Our republic was founded on the principle that individual rights should not be sacrificed for the collective good. Sacrificing individual rights for the collective good, or “general will”, is the Progressive/Marxist ideology. Progressives/Marxists/Fascists believe that all rights are subject to the state, e.g., men as communities are supreme over men as individuals, from each according to his ability to each according to his needs. (See DP, Ch. The Debate: Equality or Individual Liberty, p.3)

Hitler was a National Socialist, Lenin’s was a Marxist/Communist, and Mussolini was a Fascist. Socialism, Marxism/Communism and Fascism are the core beliefs of the present-day, anti-capitalist, Progressive movement as evidenced by the ideologies of Bernie Sanders, Elizabeth Warren, Nancy Pelosi, The Squad, and others on the left. The Progressive movement is comprised of Marxist, Socialist, Fascist and Communist organizations, e.g., Antifa, Black Lives Matters, La Raza, Moveon.org, Occupy Wall Street, SEIU, Socialist Worker, Voice of Revolution. Mussolini’s fascist Manifesto is literally the doctrine of collectivism, the Progressive ideology. Throughout history, collectivism has only proven to benefit the ruling class social elite, Venezuela being its latest victim.

Communism takes total ownership of party, social class and means of production, whereas Fascism allows ownership, but government representation controls the means of production through national councils. For example, blackmailing our country, Speaker of the House Nancy Pelosi tried to hold the \$2 trillion CARES Act stimulus bill hostage until she could get her fascist polices enacted. Hiding behind the political correctness of diversity, she tried to insert government-controlled Diversity, Equity & Inclusion (DEI) corporate boards, or national councils, as well as Union funds and Union controls into the CARES Act. Like communism, fascism also advocates for a totalitarian, one-party state.

Diversity boards completely control corporate management, salaries, hiring practices, costs, profits, and means of production. Corporations are forced to give the government a complete statistical analysis of their operations on a quarterly basis and would be beholden to Nancy and the Progressive party. Pelosi also tried to create a totalitarian, one-party, fascist, progressive state by trying to insert nationalized federal election laws into the CARES bill, e.g., early voting, same day voter registration, mail in voting, and vote harvesting, all of which benefit the Progressive party. Nancy has tried to control the presidency, the senate, and the judicial branch of government. Now she wants control of our means of production. Nancy frequently boasts about her Italian heritage while she accuses Trump of being a Russian agent; is she an Italian fascist agent? Recently Nasdaq’s Board of Directors colluded with the SEC to develop their

unconstitutional, fascist, diversity disclosure rules which require companies to annually disclose diversity quotas of their board members.

One of the defining principles of fascism is the consolidation of government and business. Klaus Schwab, founder of the World Economic Forum in Davos, executive chairman, self-appointed world leader, and his global elites are central planners engineering the world's Great Reset. They manipulate asset management companies, like BlackRock which handles retirement funds, to force them to become Environmental, Social, and Governance (ESG) compliant or forgo ESG financial investments. BlackRock is on the forefront of ESG investing and Brian Deese, who previously served as BlackRock's global head of sustainable investing, presently heads Biden's National Economic Council and owns \$2.4M in ESG stock (See PIA, CH., Home Act p. 19).

As of March 2022, ESG stock is valued at \$2.7T and is estimated to become 1/3 of our global assets by 2025. The top three ESG asset management firms are Larry Fink's BlackRock with \$10 trillion, Buckley's Vanguard with \$7.2 trillion, and State Street with over \$20 trillion in global assets. Progressives plan to use fascist ESG funds to control businesses, banking, investments, energy, property, farms, food, consumption, environments, and individual freedom. A recently deleted UN article, "The Benefits of World Hunger", argued how central planners could use world hunger as a method of controlling people. Henry Kissinger, Klaus Schwab's mentor, claimed if you control the food, you control the people, if you control the energy, you control the continent, if you control the money, you control the world.

ESG corporations use the retirement funds of other people who don't support the ESG political or social agendas. They take retirement funds from firefighters, nurses, military, small business owners, unions, municipalities, and private organizations and use that money to force companies to conform to their policies. Forcing ESG regulations on countries, corporations, banks, and insurance companies causes inflation, poor business practices, and low earnings, and causes CEOs to forgo fiduciary responsibilities to their stockholders. ESG asset managers are destroying American companies and the American energy sector while they invest in and enrich Chinese companies. They're also using U.S. military retirement funds to invest in China's military industrial complex.

Fascism is making sure you have an adequate ESG score so you, your business, and country can conduct business, like banking, borrowing, trading, investing, and selling stock, to increase in value. If political leaders, CEOs, and individuals don't comply with ESG standards, CEOs like Larry Fink of BlackRock threaten their livelihood. ESG asset managers won't invest in countries, companies, or banks that aren't woke. They won't make loans or do business with countries, companies, or individuals of which they disapprove, like the oil and gun industries or Elon Musk's Tesla.

Congress won't protect our free speech, but Elon Musk will. Twitter's progressive administrators claimed they didn't shadow ban, but after Musk moved to take over Twitter, miraculously conservatives like Lauren Boebert, Marjorie Taylor Greene, and Donald Trump Jr. gained hundreds of thousands of followers. To prevent Musk from a successful takeover of Twitter, progressives again resorted to Alinsky's fascist techniques: target, isolate, and destroy. They're using corporations like Apple, Best Buy, HBO, Coca Cola, Disney, Kraft, and others to target and boycott Twitter. The usual suspects sponsoring the boycott are George Soros's Open Society, NGOs founded by Obama and Clinton, wealthy Democrat donors, labor

unions, European governments, and other dark money globalist organizations that are trying to restrict your free speech and freedom of thought. Aren't Progressives supposed to hate corporate pigs?

BlackRock, Vanguard, and State Street have also risen to action and have ousted Elon's company Tesla from participating in ESG stock. After years of enjoying ESG stock benefits, Tesla suddenly slipped from grace when Elon announced he could no longer condone progressive fascism, exposed and liberated their media weapon, Twitter, and announced he was voting republican. Margaret Dorn, head of ESG Indices North America at S&P Dow Jones Indices, justified Tesla's sudden low ESG scores by claiming it was racial discrimination and poor working conditions, not Elon's change in politics, that knocked him off ESG's S&P 500 index. ESG is a blessing to China and American corporations based in China who use ESG fascism to take down America's industry.

Like in China, you will no longer be able to get a loan, car, home, or insurance, or own or invest in a business unless you're compliant within a certain ESG score. You will have to show your environmental plans and prove your diversity, equity, and inclusion (DEI) to exist. Government will control your business, products, production, purchases, hiring, board member makeup, movement, transportation, and living arrangements. Biden and his projecting progressive pigs, however, claim the Republicans are the fascists. (See PIA CHP. Home Act p. 17)

Over the past decade, Sri Lanka and Ghana pulled themselves into the 21st century and have established economies that rival the West. Recently, the UN and World Economic Forum convinced their leaders to go woke and they increased their ESG scores above 90%. However, after switching to renewable energy and organic fertilizer to lower CO2, they now find themselves without food, water, electricity, and gasoline. Their economies have completely collapsed and they're suffering a massive insurrection.

Countries across Europe, including England, France, Germany, and the Netherlands, as well as South Africa and Argentina have also gone woke to increase their ESG scores. They, too, are now experiencing faltering economies, food shortages and rolling blackouts that sometimes exceed 8 hours a day. In the U.S., states that have permitted the progressive woke to replace their fossil fuel energy grid with renewables, like Texas and California, are also experiencing rolling blackouts. If we continue down the global green energy woke path of Biden, the Progressives, and Klaus Schwab, our fate will soon resemble that of Sri Lanka and Ghana. The U.S. is now within a hair's width of becoming Sri Lanka and Ghana. The poorer you get, the higher your ESG score.

Despite tragic food shortages and economic collapses caused by ESG regulations, Biden and his globalists are marching on. His SEC is proposing new ESG directives aimed at U.S. farms that eliminate necessary crop protection tools, force farms to invest in renewable energy practices, and restrict livestock farming. Biden's Labor Secretary is promoting progressive unions and fascist government regulations that control how workers can invest. For example, they plan to forbid workers from investing in crypto currency and force them to invest in ESG stock.

This will eliminate corporations that are not conducive to their fascist regime, like the oil and gun industry. Fascist ESG stock will strip citizens of their constitutional freedoms, raise the cost of energy and products, and keep the working-class poor and in their place. Big government control, a form of modern

socialism, is no longer accomplished through physical takeovers but by making your survival dependent on government regulation.

Big government socialism and Modern Monetary Theory, which claims the government can spend as much as it wants, the feds can print as much as they want, and the central planners can regulate as much as they want, is failing miserably. Socialism is the big lie of the 20th century; it's equality at the point of a gun. While it promises prosperity, equality, and fairness, it delivers poverty, scarcity, misery, tyranny, and oppression. As usual, Marxists believe they are never wrong and blame everyone and everything else for their failures, like Putin, the pandemic, and Republicans. Trump interrupted the progressive great reboot of America which began under Obama and, therefore, he had to be destroyed.

For the obvious reasons, ESG is becoming unpopular with many individuals, businesses and countries, and ESG stock has slid over 17% and is starting to fail. To assist in its recovery, Biden has informed businesses that they must offer ESG stock as part of their benefit and retirement programs. He's applying fascist progressive strongarm tactics by forcing retirement fund managers to assess the cost of their company's environmental impact and then place a ESG tax on individual retirement funds. He has included ESG reporting enforcement in the Build Back Better Bill, renamed in Orwellian style to "the Inflationary Reduction Act", to make sure companies, farms, and individuals are compliant with ESG regulations. King Biden's edicts, of course, are unconstitutional and force fiduciaries to forgo their legal responsibilities to their stockholders.

Senator Dan Sullivan of Alaska has introduced the Investor Democracy is Expected (INDEX) Act, to fight ESG asset management companies. This bill gives the power to vote shares back to the shareholders. The big three investment managers, BlackRock, Vanguard, and State Street, cast 20% to 25% of all shareholder votes for S&P 500 companies. They are the top shareholders in 90% of the S&P 500 companies.

Top ESG stockholders are concerned about the recent corporate and public pushback of their fascist ESG policies. Brian Deese, Prince Charles, Goldman, Morgan Stanley, Apollo, Bank of America, and other global executives have flown to Europe on their private jets to hold secret meetings regarding ESG stock. These corporate pigs only care about their wallets and are phony environmental, social justice, and governance advocates.

At the G7 meeting, Biden continued to blame Russia for his inflation-inducing policies. However, from the time Biden was inaugurated until the Ukraine invasion in February 2022, inflation increased 435%. After the invasion, inflation increased a mere 9% (.02) which can also be attributed to Biden's policies and not the Ukraine war. Inflation due to oil shortages can't be blamed on Putin. Russia is pumping oil at full capacity and selling it at a discount to India and China. During that same meeting, Biden insisted that we must continue suffering his self-imposed inflation and supply shortages to achieve his insane energy and fascist Marxist transformation.

Former BlackRock executive and now White House economic adviser Brian Deese backed Biden by saying, "what you heard from the president today was a clear articulation of the stakes; this is about the future of the liberal world order, and we must stand firm." Deese believes their fascist regime, i.e., globalists, BlackRock, Progressives, the Biden administration, and Deese himself, are the omnipotent rulers who run our government, not the people. Their new liberal world order is the new fascism. Their fascist Marxist

transformation and inflationary redistribution policies are a complete assault on the American people, drain wealth from the working class, and only benefit the aristocratic elites.

Citizens of America are told that inflation, the soaring cost of living, price hikes, baby formula and energy shortages, crime, division, hate, open borders, and Afghanistan are all Putin's fault. However, under Trump, there was the Afghan war, Putin's war in Syria, and the Iranians terrorizing the Straits of Hormuz to disrupt oil shipments, yet we didn't experience high gas prices or inflation. This was because Trump created a solid economy and energy independence. Under Biden, the Taliban is back.

The Biden administration is the biggest threat and the most extreme political organization in the history of America, not the MAGA patriots. This sociopathic, senile imbecile believes he has an omnipotent duty to transform our society and forcibly change our lives in accordance with his and the fascist globalist's image, and he has ordained himself supreme ruler to complete this mission. Any objections are considered misinformation and will be dealt with accordingly.

It's Biden's 'totalitarian Obama moment' to block our constitutional freedoms, end free market capitalism, and replace it with big government socialism, central planning, statism, and wealth redistribution which will destroy our economy and way of life. Ronnie Jackson (R-Tx) who served as a physician in the White House under presidents Bush, Obama, and Trump, claims the Democrats are willing to put up with Biden's cognitive decline to fill the west wing with former Obama staff. On the Colbert show, Obama boasted that he could run the White House from his basement in his sweatpants.

The Biden administration is Obama's third term (Obama 3.0) and is represented by Susan Rice, Soros is represented by Blinken, BlackRock's Fink is represented by Deese, and big tech is represented by Klain. Recognize it? They've taken a flawlessly run, pre-pandemic Trump economy, a booming V-shape post-pandemic recovery, and drove it into the ditch in less than 15 months. Now we have inflation, stagnation, and falling AGIs. High energy costs, excessive spending, high taxes, crashing stock markets, insane regulations, no shovel ready projects, GDP under 2%, and recession are all back along with divisive and strained race relations, instilled fear, deprived liberties, open borders, terrorism, wars, and globalization, i.e., Iran, Paris Climate Accord, and W.H.O. treaties. This is Obama's, Biden's, Schumer's, the Progressive's, and the Davos elite's idea of the "Great Reset" and "Transformation of America." They hate America and scoff at "We the People" believing it's theirs to do with as they please.

Like French aristocrats, their arrogance has no bounds. Watching Biden laugh about inflation during the White House Correspondent's dinner is reminiscent of Obama laughing about the shovel ready projects that weren't so shovel ready after all. Biden terminates the energy sector, accelerates inflation, eliminates jobs and cars, drives people into poverty, then despotically accuses industries of gouging, and orders people to purchase new \$70K electric vehicles. They tax small businesses and the working class while claiming they're taxing the rich, then have a meltdown when one of their own woke corporations like Disney has its tax exemptions taken away. They blame Trump and call us racist when we object to their open borders. They tax and force us to finance millions of illegals who take our jobs and drive down our wages. They don't care that illegals increase the cost of our food, water, energy, and housing, commit crimes, destroy our environment, and clog hospitals, roads, and schools, because they're the new transformational order and progressive voter.

Biden financed Putin's war by cutting off our energy, then has the kahunas to accuse Americans who don't support his insane gas tax holiday, upset over high gas prices, of not standing up to Putin, favoring his war, and killing people. These fascist pigs give our country to foreigners, line their pockets, call us pigs for wanting to maintain our meager standard of living, then claim they're saving democracy.

They're inducing our suffering so they can shut down our open, free society and free market system, and replace it by imposing their global, fascist, totalitarian statism. We have enough efficient clean energy to power the U.S. indefinitely; more than enough to make a painless, seamless transition in the near future to the use of fusion, hydrogen fuel cells, solar, and other technologies which are on the horizon. We have enough natural gas in Pennsylvania and Texas alone to power the U.S. with clean energy for the next 800 years, and we have even more in Anwar and Alaska. This doesn't include nuclear power which is 100% efficient, U.S. oil which is 40% cleaner than Russia or Venezuela's, or our endless coal reserves that, when combined with existing technology, is over 98% efficient.

Biden accidentally told the truth in his State of the Union address when he declared that the U.S. only accounts for 15% of global carbon emissions while the rest of the world accounts for 85%. He further stated that, even if we did everything perfect, it wouldn't matter. World CO2 will never decrease while China and India keep doubling their output. NOAA found that, during the 16-month covid lockdowns, global carbon emissions increased. It seems that idle airplanes, boarded businesses, and quiet highways had no effect on the climate. The global annual average of climate fatalities has gone from 500K in 1920 to less than a thousand in 2021, a 99% drop attributed to strong vibrant economies.

According to the EIA's website, in 2015 CO2 emissions generated from electricity in the U.S. decreased to their lowest levels since 1993 thanks to our technological advances in fossil fuels. However, recent studies argue whether CO2 even traps greenhouse gases that supposedly cause warming. Ice core data from Greenland reveals 8,000 years of zero correlation between CO2 and temperature. Green Peace founder Patrick Moore said he doesn't know why they say the world is going to end in the next 12 years because air and water have been getting cleaner for the last fifty years. In a Washington Examiner interview, Ocasio-Cortez's Chief of Staff, Saikat Chakrabarti, claimed the Green New Deal isn't about climate change but how to change the economy. Earth Justice, the Sierra Club and other so-called environmental fascists are partly financed by China, Russia and others who want to destroy and run our country.

John Casey, former space shuttle engineer, climate expert, and author of "Dark Winter", claims the sun, not carbon emissions, drives Earth's temperature. According to Casey's "Relational Cycle" data, the past 650,000 years indicates the Earth is cooling, not warming, and that our species may have seen its last warming period for hundreds if not thousands of years. Yet, for the last 30 years, progressive propagandists continue claiming mankind, not the sun, is controlling the temperature. Although none of their climate warming predictions have come true, Progressives insist on massive government regulations and taxes on carbon-based fuels, claiming the U.S. economy is the villain. Destroying our economy and carbon-based energy sector is exactly the wrong thing to do and will leave us unprepared and defenseless against global cooling. (See DP, Ch. Climate Change, p.57 and PIA Ch. Green New Deal, p.38).

The Committee to Unleash Prosperity has discovered that solar and wind farms would need four areas the size of South Dakota to power just half of our major cities and will devastate thousands of acres of our landscape. Greenies never mention the toxic waste dumps these batteries will create. According to

Foreign Policy magazine, you would need 34 million metric tons of copper, 40 million tons of lead, 50 million tons of zinc, 162 million tons of aluminum, and 4.8 billion tons of iron to complete their Green New Deal. How are you going to get these minerals when they won't let you mine, and what would this scale of mining do to the environment if you could?

Progressives claim they're trying to create more energy, but their policies are doing just the opposite. According to the U.S. Dept. of Energy, the Biden administration is undercutting energy by raising royalty rates, eliminating subsidies, imposing excess profit tax, and is pushing international financing, Wall Street, and banks to defund and end the financing of fossil fuels. He has given Covid-19 relief funds to environmental groups to sue oil and gas companies and ordered the SEC to force companies to disclose and tax their climate risk. He has killed Keystone and other pipelines, reduced drilling on federal lands by 80%, cancelled leases in Alaska and the Gulf of Mexico, and has slowed the approval process of oil and gas projects. Yet Biden swears he's doing everything possible to bring down fuel and energy prices.

The EPA, Energy Department and Interior Department have tightened their environmental regulations destroying oil, gas, and LNG pipelines and refining permits. They've added their ideological social cost to carbon tax and have allowed states, counties, native tribes, and Democrat-backed trial lawyers into the energy policy decision-making process. The bureaucrats in the SEC, Fed, and Treasury departments are woke fascists that are unconstitutionally incorporating environmental and social justice programs into their policies. In a fascist corporate government alliance, asset management companies are withholding finances from energy corporations that they deem non-ESG compliant.

Biden's energy secretary, like Obama's, wants to raise gas prices above those of the European Unions. Deb Haaland, the Interior Secretary, put out a statement to shut down drilling that read: "A Proposed Program is not a decision to issue specific leases or to authorize any drilling or development." Thinking they're clever, they withhold permits while trying to convince the public that oil companies can get all the leases they want. It's akin to buying all the guns you want when you can't have any bullets. They have forced 11 refineries to shut down or convert to renewable fuels by increasing their air quality demands, environmental restrictions, state, and federal policies.

Biden strongarms our financial institutions, preventing energy sector investments, then threatens oil companies and refineries if they don't produce more. He claims he's forcing people to transition to electric cars (EVs) when there aren't enough raw materials to accommodate everyone, few people can afford one, China makes the batteries, and they lack the plans to dispose of the batteries when they expire. How is the environment going to benefit from the billions of tons of strip mining and billions of discarded batteries that leak acid and toxic metals into the soil?

Biden's Green New Deal has failed miserably. It's caused the European Union to revert to coal energy, pollution to increase, Putin's economy to skyrocket, the US economy to tank, a global recession, destroyed world energy resources and has emboldened our enemies. Adding insult to injury, pathetic, incompetent, imbecilic world elitists, in an incredible display of stupidity, are planning global fascist price controls that will further diminish supply, inflate prices and result in a global economic meltdown. Then again, that might be their goal.

II. Domestic

Progressives use fascism to instill fear, control and destroy our free society. Aristocracies must eliminate free thought, free markets, constitutional laws, institutions, and civil liberties. While claiming that they're defenders of democracy, they fabricate climate change, pandemics, and social justice movements to destroy and control the economy, businesses, consumption, environments, speech, behavior, and law enforcement. To solidify, fund, and establish fascist, totalitarian, mandated party rule, they concoct diversity to spread intolerance, hate speech to abolish free speech, hate crimes to divide, social justice movements to destroy law enforcement, crime to abolish gun rights, voter suppression to federalize rigged elections, open borders to destroy sovereign immigration laws, the Green New Deal to destroy free markets, the housing crisis to abolish property rights, fear to establish Marxist fascism, government student loan programs to fund progressive education indoctrination systems, and abortion rights to increase the female labor force participation rate.

To maintain power, Progressives must continuously incubate fear and alternate realities with deception, and, thus far without consequence, have employed fascism to deceive the American people. They foster lies about the pro-parent bill being anti-gay, the Supreme Court eliminating abortion, LGBTQ's isolation, white supremacy, cop minority killings, climate change, the COVID pandemic, CRT indoctrination, school closures, infrastructure funding, the energy crisis, gas gouging, companies gouging, inflation, Putin inflation, the border crisis, Trump's border crisis, Border Patrol whippings, January 6, Russian collusion, Hunter Biden's laptop, Afghanistan, creating 9M jobs, and that Biden's a uniter. They need a Biden lie-o-meter and misinformation board just to keep track of their endless lies. It's okay though because Biden and his woke administration tell you every day about how hard they're working and how they feel your pain.

Progressives just make stuff up. For example, Hakeem Jeffries (D-NY) claims that MAGA is the biggest threat to America's existence; that they're not arresting political opponents, they're saving democracy. We're told millions of illegals need to invade and take over our country because we're racist climate deniers. We're told we have lying eyes, that millions of illegals aren't flooding across the border, and that the border is secure. They claim we have the strongest economy in history after causing stagflation, inflation, and a recession. They claim the recession is transitional and imagined and that we're living in an alternate universe. We're told the withdrawal from Afghan was a success, and that men can give birth and breast feed. That must be why Biden said "we must reject the culture in which facts themselves are manipulated and even manufactured. "

Progressive sociopath projectionists blatantly point to the massive destruction they created and simply project the cause onto others. For example, Republicans are responsible for defunding the police and the rise in crime, and Trump opened the border. Cortez Masto (D-Sen NV) and her partisan party despotically voted to transform America's energy system by closing 11 refineries, and taxed and regulated energy companies out of business. Now, at the height of hypocrisy, she's shamelessly running statewide political ads blaming oil companies for the high gas prices that she created. White House spokesperson, Karine Jean-Pierre, accuses Republicans of using illegal immigrants as pawns after the Democrats flooded our country with millions of illegals to increase their power, take over our country, and usher in their global

Marxist one world order transformation. The teacher's unions are running ads and have launched DOJ investigations accusing concerned parents of attacking them after they subverted their children with political and sexual indoctrination. Progressives use fascist, Orwellian thought-control tactics to strip you of your freedom and autonomy and then claim their opponents are fascist.

The worse they make our society, the more people they can radicalize to their Marxist fascism. Vladimir Lenin said, 'the worse, the better', or as Obama and Chuck Schumer said, 'to fundamentally transform America.' The third term of the Obama-Biden administration is not interested in making American people's lives better, but by design is moving the country towards global communism. As they destroy the capitalist free market system, we go from the land of plenty to scarcity, empty shelves, long lines at the pump, and poverty, like the Soviet Union, Cuba, and Venezuela. They no longer care about hiding their agenda and are hell bent on making this transformation as fast as possible. They won't move to Cuba because being little bitches keeps them relevant, and Cuba won't take them.

Progressives are using fascist tactics to try and convince us that, after 240 years, our first amendment right of free speech is a threat to democracy. The Biden administration, Progressives, intelligence agencies, corporate and social media have a fascist relationship and collude to manipulate our thoughts to sustain their fascist ideology. Their phony Russian collusion and Hunter's laptop misinformation propaganda campaigns have exposed this relationship. Fascism allows Progressives to advance their ideology by allowing government to use privately held corporations to circumvent and violate the constitution.

Using an executive order to censor speech and online content, the Biden administration and Homeland Security started a "Disinformation Governance Board". It's a resurrection of Obama's Stop Online Piracy Act (SOPA). To shield it from congressional oversight, it was placed in the DHS secretary's office. This board gives DHS unilateral authority to takedown websites that they deemed were disseminating disinformation without going through the legal process. This fascist government board collaborates with social media corporations like Google, Facebook, Twitter, etc. to control speech and was designed to prevent people like Elon Musk from taking ownership, exposing, and liberating companies like Twitter. After its discovery and in Orwellian fashion, they repackaged and renamed the misinformation board "The Task Force to Fight Online Harassment."

The board was to be headed by a partisan hack, Nina Jankowicz, A.K.A. Mary Poppins, who alleged Trump's involvement in Russian collusion, claimed hunter Biden's laptop was Russian disinformation, etc. Once she was exposed spreading misinformation and lies, she doubled down claiming bipartisanship and that the misinformation board was only meant to filter incoming foreign misinformation. Unfortunately for her, Chuck Grassley (R-Sen IA), released documents obtained through a whistleblower that revealed Biden's government misinformation board was colluding with social media corporations that employed fascist tactics. This fascist corporate government misinformation board was aimed squarely at our domestic population, giving Progressive's Orwellian thought control over our speech, politics, academics, social thought, environment, free markets, and healthcare.

To change America's demographics, despotic fascists like Biden, Mayorkas, Soros, and the global conglomerates have joined forces. They have circumvented Congress and the judicial branch and have setup a fascist dictatorship. Their ESG asset managers discriminate against companies that assist in the

prevention of illegal immigration. They've partnered with and have allowed Mexican cartels to control U.S. borders. Mexican cartels are now making over \$200M per week by charging millions of illegals from 160 different countries thousands of dollars to cross into the U.S. They have also partnered with sociopath Luis Garcia Villagran, a Mexican national who believes God has ordained him to destroy America and its sovereignty. Villagran is leading the caravans of millions of illegals that are invading our country.

According to House committee testimony, these fascists are using the UN, Big Tech, and NGOs to treasonously execute the New Way Forward Act previously denied by congress. To aid and abet the invasion, these fascist organizations are providing illegal immigrants with social media platforms, maps to the U.S., and advice on how to avoid or place themselves in the custody of the Border Patrol and thwart U.S. laws. They're using U.S. taxpayer money to send lawyers, psychologists, and money south of the border to recruit, aid, and encourage people to cross into the U.S. illegally. (See PIA CHP. Illegal Immigration p. 42)

Progressives refused to follow the remain in Mexico and Title 42 policies upheld by the courts. Recently, the courts left the remain in Mexico policy up to Biden, so course he overturned it. In 2021, over 2M illegal immigrants crossed the U.S. borders and, according to the Associated Press, from December-June 2022 another 2M have illegally crossed. Including the border patrol's estimated 1.2M got-aways, this means nearly 5.5M illegals have crossed our borders in the last year and a half. The Biden administration has only used the stay in Mexico policy 7,200 times, less than .0036%, and Title 42 about 40% of the time. Biden, Mayorkas, and the Department of Homeland Security have decided that they have unilateral authority to give away our country and, without objection, on June 1st, 2022, they empowered themselves to grant amnesty to millions of illegal immigrants that have and are pouring over our borders.

Biden is treasonously changing American lives by weaponizing millions of illegal aliens and stampeding them into conservative districts. He's overwhelming their hospitals, schools, legal systems, and financial resources all to benefit his party and their fascist ideology. He's forcing communities to redirect their financial resources to benefit law-breaking illegal aliens while cities are desecrated with homeless vets and mentally ill U.S. citizens. Biden reversed Trump's executive order that prevented illegals from residing in the U.S. if they imposed a financial burden and is now offering them taxpayer funded healthcare, welfare, and housing.

According to the Center for Immigration Studies (CIS), once illegal immigrants receive amnesty, they will be allowed to draw benefits from Social Security and Medicare. Each one of these recipients will receive, on average, \$129,000 more from Social Security and Medicare than they and their employers will pay. Each illegal immigrant family will cost the American taxpayers approximately \$200K per year, \$100K per year just to enroll their estimated 4 children in public schools. According to CIS, DHS, MIT, Yale, and Fair, if the despotic fascists grant amnesty to all illegals, at Bidens invitation, American taxpayers will pay foreign invaders over \$4 trillion for the privilege of having these raiders replace them and take over their country.

According to a FAIR report, immigrants create 213% more damage to the U.S.'s environment than they do to their home county's environment. When immigrants come to the U.S., they quadruple their CO2 emissions and cattle consumption, increase their use of fertilizer by a factor of six, increase their forest

footprint by 357%, and birth 1.5X more children than they do in their home country. The average immigrant uses 550,000 gallons of water annually. From 2000-2010, 70% to 90% of sprawl nationally was caused by immigration-driven population growth. The average urban driver now spends more than 100 hours per year commuting to work compared to just 16 in 1982, a 525% increase. The Texas Transportation Institute's annual study of traffic congestion in urban areas found that, in 2005, Americans spent 4.2 billion hours delayed in traffic and wasted 2.9 billion gallons of fuel. Increased traffic means more than wasted time and money; it means higher greenhouse gas emissions due to idling cars and more chemical runoff which pollutes our nation's waterways and your backyard.

The latest divisiveness that Biden's spewing appears to be the work of Anita Dunn, Obama's former propagandist. Playing the race card, Biden is trying to cower anyone who objects to his progressive, globalist, unconstitutional takeover of our country. Americans objecting to his tyranny, to increasing his party's power by replace them with millions of invading illegals that forever change our countries demographics, is equated with the Klan. Only Biden, friend of the Klan, a projecting Progressive, could accuse Americans of being Klan members for revealing the obvious. When he invites millions of illegals to eliminate us with fentanyl, run and gun us down in our streets, trash our communities, takeover our jobs, social programs, financial resources, hospitals, schools, and legal systems, one can only conclude that they're being replaced.

The Biden administration just awarded the "Vera Institute for Justice", a George Soros organization, a \$172 million HHS grant to help illegal immigrants avoid deportation. Previously funded by Obama, this institute supports the "defund the police movement" and stands to gain \$1B by the end of its contract. Soros is another foreign-born interloping immigrant that is aided by the fascist machine to abet illegals in subverting our laws to change our demographics.

Since the Immigration and Nationality Act of 1965 was signed by Lyndon Johnson, the population of the United States has exploded by 140 million people. Senator Ted Kennedy of Massachusetts, who helped construct the bill, claimed the law wouldn't replace the American population with more compliant foreign-born voters. He stated, "the bill will not flood our cities with immigrants, it will not upset the ethnic mix of our society, it will not relax the standards of admission, and it will not cause American workers to lose their jobs," yet this is precisely what the bill did.

Replacement ideology is not a conspiracy theory as Biden would like to lead you to believe. Democrats like Stacey Abrams, Julian Castro, Dick Durban, and Biden, among others, boast daily how the undocumented are going to be the future majority and turn red states blue. The New York Times even printed an op-ed that read "We Can Replace Them". According to CIS, 67% of Hispanic immigrants can't speak English after living here for over 15 years and 41% of immigrants are functionally illiterate.

Biden has committed impeachable fascist offenses by refusing to uphold 1) the constitution to defend U.S. borders 2) congressional immigration laws, and 3) the stay in Mexico and Title 42 policies, and by 4) using unauthorized federal funds to aid and abet criminals crossing our borders, and 5) illegally transporting them into the interior of the U.S. He's working with the Davos-Soros globalists abetting an invasion, giving away and transforming our country. Anyone denying this is more insane than Biden. RINO republicans aren't objecting; they're complicit.

The U.S. courts have admitted that they lacked standing when they unconstitutionally bowed to progressive pressure and mandated their abortion ruling. They agreed that the decision belongs to the democratic process and state legislators. Progressives, however, need to rule by totalitarian fascist mandates to legitimize their unpopular policies. They use the totality of their fiat and edicts (i.e., executive orders, ending the electoral college, senate filibuster, court and senate, packing, etc.) to accomplish their goal of destroying our country. They use Roe v Wade as the symbolic golden calf to panic and whip the progressive freaks into a frenzy and drive them to the polls.

The Supreme Court didn't ban abortions. Abortion has no basis in the constitution and is therefore outside of the Court's purview, or more bluntly, it's none of their business. Progressive judges impose outcomes like abortion; conservative judges sight the court's constitutional obligation as the basis for their rulings. Legal decisions based within our constitution allow us to rule ourselves democratically, which goes against the progressive Marxist ideology.

When the courts ruled on Roe v Wade, approximately 30 states disallowed abortions and 20 states allowed it. If the courts would've remained impartial, our judicial process wouldn't have been damaged and abortion wouldn't have become a national political issue. The Roe v Wade decision has been bad for our country in every way. When the Democrats are through using this issue as a political cudgel, people will realize that this ruling gives this power back to the states and allows "We the People" to decide. Freedom to choose, however, doesn't seem to be part of the progressive ideology; it's easier for the elite minority to rule by mandates.

A poll taken by Gallup from May 13–18, 2021, found that 49% of the U.S. population is pro-choice and 47% is pro-life. Other polls show 46% of the U.S. population doesn't support abortion, only 40% support abortion up to 15 weeks, and only 20% support unlimited abortion. An AP public opinion report found that 61% of people felt abortion is legal and 38% felt it is illegal within the first trimester; in the second trimester, 34% legal and 65% illegal; and in the 3rd trimester, 19% legal and 80% illegal. Mississippi allows abortion up to 15 weeks, which Progressives believe is archaic. There are only a few countries more radical than the U.S. regarding abortions. These include North Korea, China, Singapore, Iceland, New Zealand, Canada, Vietnam, and now France which just increased the threshold from 14 to 16 weeks. Most of Europe limits their abortions to 12 weeks.

Instead of stepping up to unite us, Biden has once again used this issue to divide us and keep us at odds, living in fear of each other. Even though the courts have explicitly limited their ruling specifically to abortion, Biden falsely claims that conservatives will now go after gay and interracial marriage. If Progressives care so much about women's rights, why have they stolen their identity by claiming that the definition of a woman is subjective and letting men compete in and destroy their sports? Suddenly, when it suits their political pig power purpose, women aren't gender neutral anymore but women again.

King Biden has cancelled the policy that new regulations had to be passed through a cost benefit analysis test; now every bureaucrat is running wild with regulations. For example, Gina McCarthy, the White House National Climate Advisor, has threatened to regulate the airline industry out of business and has promised to pass 100 new regulations on the appliance industry. Trump's Senior Economic Adviser Kevin Hassett's new book "Drift Towards Socialism" claims Biden's tax threats and extreme regulations are

forcing companies to once again flee America. As Biden drifts towards socialism, prices will incrementally rise, and goods will become scarcer.

Most likely for political reasons, the FDA falsely accused the Abbot company of producing baby formula that contained bacteria. After closing their factory, those FDA agents went on a long vacation, leaving Abbot without recourse to rectify the situation. Their actions disrupted the baby formula market leaving mothers across the country unable to feed their babies. Biden's administration then rewarded the FDA with \$120 million for botching the Abbot baby formula shut down. Biden's administration also took \$130 million from FEMA's food and housing budget to buy baby formula for illegals, fly illegals around the country, and give NGO's more money to process illegals faster.

The International Health Regulations treaty that Biden is about to secretly sign without the consent of the people will legally bind the U.S. to international law and has Obama's fingerprints all over it. This will give the W.H.O. the power to close the U.S. economy whenever they claim there's an epidemic. They can also determine which international populations get treated first. Further, it gives the W.H.O. unlimited authority to determine what an epidemic is, such as guns, racism, or misinformation. Biden is secretly handing over our constitutional rights and sovereignty to a corrupt global organization that's in bed with communist China and that has participated in the COVID cover up. The W.H.O. meeting has been secretly covered up by the fascist, government, corporate-controlled media.

Without informing anyone, King Biden just pledged \$1.2 trillion to the Iranians if they sign an undisclosed deal with the U.S. This massive amount of money will increase their arsenal, complete their nuclear weapons program, spread terrorism throughout the region and world, reward our enemies, punish our adversaries, and has Obama's fingerprints all over it.

Regardless of politics, religion, race, or social status, sports united us. Therefore, Progressives had to subvert this popular convention by turning it into a divisive, fascist, corporate, progressive, woke movement. The Carolina Panthers now have a transgender cheerleader. Five Florida Ray baseball players were reprimanded for not wearing their pride badges. Jack Del Rio, the offensive coach for the Washington Commanders, formerly the racist Washington Redskins, was fined \$100,000 for asking why BLM wasn't punished for riots that were much worse than the January 6 protest. Progressives love dividing the country then claiming the cure is their fascist Marxist ideology.

ESPN reported that NBA owners have more than 10 billion dollars invested in China but only invest hundreds of millions in social justice programs in the US. A few sport franchise owners investing in China are Miami Heat's Mickey Arison (\$375 million,) Sacramento Kings' Paul Jacobs (\$150 million,) Memphis Grizzlies' Robert Pera (\$369 million,) Houston Rockets' Tilman Fertitta (\$160.3 million,) and Charlotte Hornets' Michael Jordan (\$85 million.) Jordan just donated \$100 million and Brooklyn Nets owner Joe Tsai has donated hundreds of millions to social justice programs in the U.S. Fascist NBA traitors finance America's divisive destruction while ignoring China's use of slave labor and oppression to secure Chinese investments, status, and fortunes.

Biden sold 950K barrels of oil from the American strategic oil reserves to China's Petrochemical Corporation in which his son, Hunter, has been identified as a 10% owner. Hunter claims he sold his shares, but China's national credit information lists Skaneateles as a 10% owner. According to the Free

Beacon, Washington D.C. business records list Biden's private equity firm BHR as the only beneficial owner in Skaneateles. Biden has quashed all investigations into China regarding COVID and has allowed them to traffic unlimited quantities of fentanyl into the U.S. which has killed millions of U.S. citizens. He's instructed his Department of Justice to eliminate Trump's China initiative program that combated Chinese espionage. This has allowed the situation to become much worse. Along with businesses and universities, China now targets everyday U.S. citizens. According to Homeland Security committee member Ron Johnson (Sen. WI), the reason Biden canceled the China initiative program was because it may have uncovered suspicious activity involving Biden's corrupt family businesses.

The U.S. Treasury Department has received an unparalleled 150 reports of suspicious activity concerning Biden's family bank accounts. In an unprecedented defensive move, Biden has just imposed a new rule that forbids the Treasury Department from distributing any financial documents to Republicans without Democrat authorization. In essence, this halts any investigation into his family's corruption, and they impeached Trump for a phone call. This brings us to the RINO's railroading express.

III. Railroading RINOs

Welcome aboard the RINO's railroading express. RINOs won't go after Hunter's laptop that reveals, among other things, his and Joe's corrupt dealings with China, Ukraine, Romania, and Mexico. They won't go after former FBI director Louis Freeh who gave \$100,000 to Biden's grandchildren assuring him a position in the Biden family business. They won't go after Kevin Morris, Hunter's lawyer, who paid Hunter's \$2 million tax fraud bill, his \$20,000 a month California house rent, and other expenses. Peter Schweitzer wonders why Hunter's not paying his own expenses if he sold his BHR stake in the China firm for \$20 million.

RINOs won't expose Biden and the Progressives who just used the NEPA Environmental Policy Act to nullify their own \$1.2T infrastructure bill. NEPA uses progressive environmental agencies and their lawyers to prevent infrastructure implementation. Conveniently, environmental lawyers get paid with taxpayer money to sue their taxpayer employers for years to delay and/or shutdown the implementation of the infrastructure bill. Like Obama's \$800B non shovel ready infrastructure bill, the Democrats are once again funneling another \$1.2T of taxpayer's infrastructure money to the Democrat party, their operatives, unions, donors, bureaucrats and RINOs. Passing needless tax and spend bills is how they enrich, empower, and maintain control.

For example, under the guise of national security, 18 RINO senators supported the Progressives \$284B CHIPS bill which uses taxpayers' own money against them. It gives China corporate welfare, \$3B for China's solar production, eliminates China tariffs, and surrenders U.S. manufacturing to them. The bill gives the UN \$8B and the Energy Department \$45B to impose climate regulations on U.S. citizens. It gives \$45B to the Commerce Department to build computer chip factories in Germany, tax breaks to Intel, and finances endless corrupt Solyndras. It gives \$78B to the National Science Foundation, four times their present budget. \$284B could be better spent on cutting U.S. corporate tax rates to 15%, eliminating our competition.

Wall Street, U.S. corporations, sport franchises, entertainment industries, and most of our politicians are heavily invested in China. The sellout pigs are using the national security lie to push and justify their corruption. Schumer has stripped any security pretenses from the bill, allowing chip companies to continue business as usual in China. This \$284B CHIPS bill is another 'sell out America' and 'shovel taxpayer money into the corrupt politician's pockets' bill. As mentioned in my last paper, Progressivism in Action, Biden is now delivering his third promise to China by dropping their tariffs. China Joe is selling out the U.S. to China for the \$1.5B they paid him.

In a fascist symbiotic relationship, Progressives collude with the teachers' unions to ensure their local, state, and federal re-election. For example, during the 2020 election, the American Federation of Teachers (AFT) donated \$2,674,719 and the National Education Association (NEA) donated \$1,941,045 to the Progressive party. In return, politicians gave teachers job security and lavished them with taxpayer pay and retirement benefits that often bankrupt state and local municipalities. To maintain power and to ensure future progressive growth, teachers indoctrinate their students with progressive ideologies.

Teachers' unions, Progressives, and other Marxists pursue lawsuits to teach subjects such as critical race theory (CRT) while they and their fascist media machine tell parents and the public that CRT curriculum is a figment of their imagination. The NEA just authorized language directing teachers to teach that men can

give birth and chest feed, and that students now have birth parents. Using fascism, the NEA is colluding with the DOJ and has authorized a \$140K fund to setup a parent terrorist watchlist to subpoena any parents who oppose and/or present evidence regarding CRT curriculum. One Nation America reported on April 28th, 2022, that more than 13 blue states have illegally converted over \$122B of COVID Relief Funds to implement CRT curriculum in their schools. Many consider this a payoff to the teacher's unions who helped implement the fascist machine's election fraud that illegally installed Biden into the presidency.

Progressives along with RINO senators John Cornyn and Bill Cassidy are sponsoring the Civics Secures Democracy Act which gives states \$6 billion to teach CRT instead of American History in their educational systems. The title of former Secretary of Education Betsy DeVos's new book, "Hostages No More," is a quote from Horace Mann, a 17th century educational reformer who stated, "educators are entitled to look upon parents as having given hostages to our cause."

Separate studies by the CDC and The Washington Times found 2.5 and 2.1 million guns respectively are used in self-defense each year, that 81% of the time guns are used is for self-defense as opposed to 19% for committing crimes, and that 96.2% of mass shootings occur in gun free zones. John Lott's study from the University of Chicago found that states with the largest increase in gun ownership also have the largest drop in violent crimes, and that almost all the gun violence occurs in cities controlled by Democrats with strict gun laws. Biden's account of increased gun violence after the 1994 10-year ban on assault weapons was an outright lie. That ban had zero effect on gun violence. Under Biden's presidency, however, gun deaths in the U.S. have increased by 25%.

Democrat run cities won't enforce gun laws that are already on the books which allows criminals back on the street and gun violence to increase. They then demand more gun laws to prevent law abiding citizens of their right to protect themselves against the criminals they just released. For example, 87% of people committing gun violence have an average of 12 prior arrests. In New York, the NYPD found that 10 criminals were arrested 485 times, 716 criminals were responsible for 30% of the shootings, 4,400 people were arrested for carrying illegal arms but 1,200 of those cases never made it to trial, and of the 4,400 only around 700 were convicted.

Facts, however, don't matter to Progressives or RINOs, only politics matter. A fascist totalitarian government can only exist under a controlled population no matter how lethal it may be for law abiding citizens. Citizens must be stripped of their liberties, especially their second amendment gun rights. While Progressives let thousands of armed criminals cross our borders and out of jails, they render law abiding citizens defenseless. Fascists don't care that constitutional freedoms are non-negotiable and not up for a vote. Global RINO senators like Burr, Cassidy, Cornyn, Collins, Ernst, Graham, Murkowski, McConnell, Portman, Romney, Toomey, and others believe they're omnipotent and have the authority to strip citizens of their constitutional rights.

RINO and progressive fascist pigs are in bed together and have formed a unitary party. They fear revolution and our weapons because they've sold us out. They feel they have job security because they've either been recently re-elected for another six years or are retiring to their cushy, progressive, corporate lobbyist job. They're perceptive enough to realize when their constituents are finally fed up with their bullshit. Like clockwork, just before the majority gets the boot, RINOs assist Progressives in passing hostile legislation that wouldn't have passed once conservatives reclaim the majority. Slim majorities behoove

politicians synonymous to conmen. Aware that each party wants to maintain power, they realize people will hold their nose and vote them back into office. This tradition must be broken for the sake of our country.

The fascist corporate/government owned media provides cover for their aristocracy. If they can't prevent Trump from seeking office by jailing him, they'll use the fascist media to sensationalize the January 6 show trials and suppression polls to drive down his popularity. Progressives use Saul Alinsky fascist tactics to drive conservative news organizations favorable to Trump, like OAN, off the air. Fox News has quashed Trump interviews and blacked out his well-received and successful American comeback speeches. Rupert Murdoch, who has donated millions to Clinton's campaign and foundation, wants a candidate more suited to the elite "establishment" and mainstream media, one who elevates his family status at cocktail parties.

Fox hires CNN advocate sellout rejects like Piers Morgan, who, despite mountains of election fraud evidence, recently accused Trump of fabricating election fraud conspiracy theories. Fox News 'talking heads' have been silenced regarding election fraud along with all the other left leaning network marionettes. Chris Wallace departed Fox News for CNN after he scandalously aided Joe Biden during the presidential debate, and Chris Stirewalt was finally fired in January 2021 for calling Arizona's 2020 presidential election early in favor of Joe Biden.

Arnon Mishkin, Dana Blanton, and other anti-Trump Progressives who rigged Fox News election night coverage still run the Fox News decision desk. They continue to rig and run Fox News opinion research suppression polls, then publish the phony results that significantly favor progressive opinions and their candidates. For example, a Fox News poll claimed that most Americans hate America, with the majority being republicans. They have Biden's approval rating at 45%, 6% above other poll averages, and with his disapproval rating at 53%, 8% below other poll averages. The Monmouth University Poll has Biden's approval rating at 38% and disapproval at 57%. Quinnipiac has his approval rating at 33% and disapproval rating at 61% which is more in line with other polls. Even progressive Politico has Biden's approval poll averages at 39% with only 18% believing the country is headed in the right direction and 79% believing it's on the wrong track.

Once again, the fascist government corporate media, i.e., ABC, CBS, CNN, FOX, NPR, NBC, PBS, are already rolling out their suppression polls to make the midterm race look closer than it is. They're preparing their alibi to pretend it was the "fairest election ever" after their fascist progressive machine commits the usual voter fraud and rigs another election just like they secured the Kennedy election by blatantly throwing thousands of ballots into Mayor Daley's Chicago River. An NBC poll just claimed it's now a 46% to 46% split between which party Americans want to control congress, and Fox claims it's Dems 44% to Reps 47%, well within the margin of error. (See PIA CHP. For The People Act p. 21)

They endlessly sell this suppression poll bridge. Either they're lying, or the American people are the dumbest masochists on the planet. It hard to believe that the American people would continue to allow these elite, globalist, progressive pigs to rape and pillage them, their families, and their country after they tyrannically unleashed crime, inflation, the DOJ, IRS, EPA, SEC, intelligence, and other government agencies on them. They've opened our borders, imposed lockdowns, destroyed our jobs, incomes, standard of living, children's education, and foreign policy. We still haven't felt the effect from their Orwellian named "Inflation Reduction Act" that will release another round of inflation and 87K more IRS

agents on middle- and lower-income American families. This bill will further increase our energy costs and erode our standard of living. Good luck heating your homes this winter; maybe you can sleep in your electric car.

Zuckerberg claims he's not going to get involved in the 2022 elections. That's hysterical! His corporate friends and the 501 (c) (3) progressive organizations already possess and have updated the crucial swing states' voter registrations lists. Fascist, corporate, state-run organizations already retain and have enhanced the lists, making them even more progressive computer friendly for the upcoming elections. They retained everything needed during the 2020 election to rig future elections and can now bypass the states. Ron Johnson (R Sen. WI) claims Zuckerberg's political hacks had the keys to the Wisconsin absentee ballot room.

Zuckerberg no longer needs to bribe or purchase the lists from corrupt progressive state office election officials. When the corporatists combine their voter registrations lists with King Biden's executive order that mandates billions in government election funding and that all government agencies must be involved in voter recruitment, the 2022 election will be a Zuckerberg fascist 2020 election repeat on steroids. The Progressives jailed Dinesh D'Souza for 18 months for passing an extra \$10K to a friend's campaign but did nothing to Zuckerberg and Bloomberg whose combined contributions to the Progressive party's 2020 campaign was nearly \$1B. Contrary to America's interest, the RINOs looked the other way while the fascists rigged our elections to empower and enrich themselves, and still, no one's in prison.

It's disheartening to constantly watch sellout, uninformed RINOs and the conservative media talking heads distort facts, distance themselves, and run for cover while condemning the January 6 protesters. Fearing their corporate masters, blow back, and dismal ratings, they disregarded the purpose of the protest and failed to report on the substantial election fraud evidence and blatant voting irregularities. They've ignored the perverse, counterinsurgent, fascist, Saul Alinsky tactics used by the Progressives and the unconstitutional treatment of the protesters. They've joined the fascists, have been redirected and duped into regurgitating progressive talking points. Neither the RINOs nor the conservative media ever demanded that the progressive thugs who laid waste to the Wisconsin capital for months be jailed. No matter how heinous a Progressive's crime, they always get the benefit of the doubt.

Like in third world countries, the progressives have held many January 6 protesters in solitary confinement for almost two years without a trial for merely standing outside or taking selfies inside the capital. In contrast, Biden's DOJ declined to prosecute and set free the Colbert staffers who unlawfully broke into the capitol building on several different occasions. J6 actions were miniscule compared to the \$6B in destruction and the lives lost across our country during the Antifa and BLM riots. Like Whitmer's kidnapping and Charlottesville, it appears that the FBI, BLM, and Antifa operatives again setup and led the destruction during the January 6 protest. Pelosi, the DOJ, FBI, and capital police are again complicit in covering up the truth by hiding thousands of hours of tapes to push their January 6 charade.

While maximizing J6 protesters' prosecutions, progressives unabashedly display and promote their own thugs' riotous intimidation. They incorporate fascism to defend their destructive armies who assist them in destroying our civil society, empowering and enriching them. They use social and corporate media, corporate funds, NGOs, Go Fund Me bail money, the courts, and legislative bully pulpits. They train their

cameras toward a hail of bullets, fiery backdrops of violent out-of-control mobs and mass destruction, then vigorously deny and defend their actions.

Our new two-tier justice system has never been more evident. A progressive D.C. jury acquitted Hillary Clinton's lawyer, Sussman, even after key witnesses admitted, and his own texts proved, that he and Hillary purposely mislead the FBI to influence and rig an election. Conversely, the January 6 protesters remain locked up without trial for almost two years for protesting the election that Sussman & Hilary rigged. While Peter Navarro, Steve Bannon and J6 protesters are jailed, Sussman goes free. It's interesting to note that most D.C. residents hold government jobs, 92% vote democrat, and even liberal lawyer Alan Dershowitz admits it virtually impossible for a conservative to get a fair trial in that town.

Biden's DOJ is anxiously awaiting the end of the J6 show trial so they can railroad Trump in a D.C. trial like they did to Manafort, Stone, Flynn, Papadopoulos, Navarro, Bannon, and January 6 protesters. Like in a third world country prior to an election, the DOJ is now colluding with J6 show trial conspirators to influence and rig another election. They've again fabricated charges to raid a former president's home, hoping to defame and/or prove any unlawful activity.

The Franklin Square Washington D.C. riots during Trump's 2017 inauguration kickstarted two years of Antifa and Black Lives Matter riots. Hundreds of rioters committed vandalism, set fires, and overturned cars. Six police officers were injured, 200 progressive militants were arrested, and it took 5,000 National Guardsman to quell the riot. Still, the fascist machine insisted that the most heinous insurrection in our history occurred on January 6. Unlike the January 6 incitement charges brought against Trump, the DOJ refused to even investigate the incitement of Nancy Pelosi and John Lewis who, just prior to Trump's inauguration, broadcast their lie that Trump's presidency was illegitimate due to Russian election interference.

Jake Sullivan, Bidens national security adviser, remains free after lying to Congress regarding Russian collusion. Obama's former head of the IRS, Lois Lerner, walked free after she lied to congress and unlawfully targeted, audited, and litigated conservative donors into bankruptcy. Holder's fast and furious, Clinton's foundation, Benghazi, and Uranium 1, Schumer's Supreme Court threats, doxes, and illegal protests are all ignored by the DOJ. Maxine Waters' orders to persecute MAGA and attacks on the White House and White House visitors all escape media and DOJ scrutiny. The progressive, fascist machine, however, continues fabricating incitement indictments against Trump over his January 6 involvement, against his administration and supporters, and against parents protecting their school children.

RINOs will not go after the Obama/Biden administration, Clintons, FBI, CIA, NSA, IRS, DOJ, FISA court judges, or congressional members like Pelosi, Schiff, Swalwell, etc. They won't go after ambassadors like Yovanovitch, Fiona Hill, Taylor, or sociopaths like Vindman. They won't go after progressive bureaucrats or their affiliated government confederates. They won't go after Mueller, his corrupt panel, McCabe, Page, Comey, Strzok, the 51 spies who lied, or the others who falsified evidence to keep themselves in power. All the above used their offices to setup a phony Russian collusion story, harass, bankrupt, and jail their political opponents, then lied to Congress to impeach a U.S. president to empower and enrich themselves.

RINOs will not hold the Democrats liable for rigging federal elections and illegitimately seizing administrative and congressional powers. They have ignored the Progressives' unconstitutional, despotic,

executive orders that implemented lockdowns, seized private property, nationalized businesses, shredded our liberties, opened our borders, and misappropriated funds. They sat idle when Progressives unconstitutionally blocked them from legislative procedures, committees, documents, facilities, representative offices, and shook down and jailed their constituents, among other atrocities.

No, the Republicans will continue to allow Democrats to control and run the government just like they did when Trump was in office and they held the Congressional majority. They allow Democrats to get away with their corrupt, dirty cons because the RINOs are terrified of the fascist, corporate machine and its media. Democrats also provide them cover while they line their pockets. Elite establishment RINOs won't make them pay because they're part of the fascist swamp.

The elite Republican establishment swamp creatures that applaud RINOs like McCarthy and McConnell think it is going to be business as usual if they win back the majority. They think they're going to rotate back into leadership roles and continue to line their pockets without rocking the boat. McConnell has already promised that he won't go after Biden, Schumer, Pelosi, or other progressives that have constantly railroaded Republicans. He has already proclaimed "business as usual", supported their recent legislation, and bought his democrat allies an expensive bottle of Kentucky whiskey to commemorate their new global, corporate, government alliance. He is more worried about his wife's shipping business with China than the American people and needs Democrats to keep the government gravy train going.

RINOs like McConnell and McCarthy are more disgusting than Progressives. They attack Republicans more frequently than Democrats, and both are destroying our country. Secretly they agree with much of the progressive ideology and legislation. They bargain with the same corporate masters and corporate lobbyists to sellout, centralize, isolate, and imprison their constituents. They feed off each other, go along to get along, to empower themselves and line their pockets.

Trump supporters were thrilled that he put America first, leveled the playing field, and took the yoke off the poor and middle class. He made an error in judgement, however, when he endorsed 'fellow Republicans' like McCarthy, McConnell, Romney, and Christopher Wray. The media eventually exposed McCarthy for pushing for Trump's impeachment and social media's censorship of his own political party. I thought only progressive Marxists claimed free speech is a threat to democracy. Speaking of RINOs, Mitt Romney is playing the conservative media again, including Fox. Once again, he is pretending to take conservative positions so he can run in the 2024 presidential election as a third-party candidate, spoiling the chances of true conservatives and helping the progressives win. These Flimflam con artists need to go. Mars is nice this time of year.

President Trump proved that economies can yield both increased wages and job growth without inflation; that cutting taxes and deregulation gives businesses more freedom while increasing government revenue; that you can increase energy while decreasing pollution; that you can control the border with a wall, resolve the Middle East conflict through the Abraham Accords, and achieve global peace through strength. Trump was a threat to their global, fascist, establishment world order and had to be destroyed. Now the pigs are back, happily feeding at the trough and enriching themselves at the expense and misery of hard-working Americans. Jefferson said, "when the government fears the people, we have liberty; when the people fear the government, we have tyranny.'

IV. Fascionomics

Biden's poor economy is not Putin's fault, it is the fault of Biden and the Progressives' radical, socialist, fascist policies: their modern monetary theory, welfare state expansion, excessive government spending, war on fossil fuels, massive regulations, business tax, and money printing. It is caused by the Progressive's war on free market capitalism and their attempt to turn our market economy into a state-run economy. The Progressive's war on the five pillars of macroeconomics, i.e., broad based low-rate flat tax, spending restraints, sound money, minimal regulations, and free trade, is sending our whole economy into turmoil.

Lyn' Biden claimed that he inherited a bad economy when in fact, thanks to Trump, our GDP increased by 4.5% in Q4 2020 and by 6.3% in Q1 2021. The economy was already in a post pandemic recovery making the March 2021 \$1.9T stimulus unnecessary. Under Trump our economy was growing over 4% with inflation at 1.4%, proving his policies of low taxes and deregulation worked. And then came Joe. In his first year in office, Biden imposed 69 regulations, more than any other president in history. In comparison, Obama imposed 52 and Trump 22. In 2021 alone, the Biden administration levied \$201B in regulatory costs, three times more than Obama and 40 times more than Trump in his first year. Regulations now cost the American people over \$2T annually, or 1% of annual GDP. Hilariously, the fascist media call Trump the dictator. Anybody have a mirror?

Lyn' Biden claimed that Trump's tax cuts caused deficit spending and income inequality. But according to the IRS tax treasury data, thanks to Trump's tax cuts, the U.S. treasury brought in a record \$2.1 trillion in federal tax revenue in 2021. In the second quarter, tax revenues came in at 20% of GDP, again breaking all-time tax revenue records while income inequality shrunk to an all-time low. Trump's tax cuts are responsible for the only good economic news we have today. Despite record benefits to America and its citizens, Schumer, New York's freak senator, wants to steal and spend more of your money and is gutting the last remnants of Trump's tax cuts. The projecting Progressives plan to raise your taxes another \$739B and have resorted to their age-old lie of claiming it's the Republicans who want to raise taxes and cut Social Security and Medicare. Where is the Ministry of Truth when you need it?

Lyn' Biden claimed that he created job growth, but he hasn't created any new jobs. His Job growth boast is also full of shit. Twenty-two million people returning to work after the progressives unlawfully locked down our economy is not job creation. There are an historic 11.5 million unfilled jobs and 5.6 million more jobs than workers, or two job openings for every unemployed worker. During Trump's pre-pandemic boom, in February 2020, there were 64 million people in the workforce. On May 6, 2022, another 428,000 people returned to work and Biden's civilian labor force is still 1.2 million below Trump's pre-pandemic peak. If Trump's 2017-2019 job creation trend was still in place today, the labor force would have 6 million more workers than it currently has. Biden's has not created jobs; pre-pandemic jobs, created by Trump and subsequently shutdown by Progressives, have simply been refilled.

Trump's economic growth would have been even faster with his inflation rate at 1.4% except, in 2018, Powell did the fascist machine's bidding by needlessly raising interest rates four times to intentionally slow growth and dampen Trump's economic success. Conversely, Powell propped up the Biden economy by refusing to raise interest rates until inflation was out of control at 8.6%. In 2022, even though the economy was already in post-pandemic recovery, Powell and the Fed printed \$2 trillion to support Biden and his Progressives' spending bills resulting in massive inflation. The Federal Reserve has gone political

and has joined the fascist, progressive regime. Foolishly, Biden is again calling for a wealth tax, a punitive tax on companies which will lead to reduced economic growth and supply side inflation.

Biden constantly repeats the delusion that our economy has never been better and is growing at historic levels, but the Washington Post, Bureau of Labor Statistics, Fannie Mae, FDIC, and Mark Thiessen all disagree. According to the Atlanta Fed, Biden's GDP in Q1 2022 decreased at an annual rate of 1.6% and fell another .9% in Q2 2022, clearly indicating we are now in a recession, assuming you are still using the original definition of 'recession.' Disposable income shrunk by 3.3%. Instead of May's retail sales increasing by .2%, they are down .3%, and instead of a 3% increase in manufacturing, it, too, is down 1.2%. If Biden does not screw anything else up, like passing the BBB bill, the Fed's economic growth projections for his next three years are under 2%, just like Obama's growth rates of 1.7% for 2022-2023 and 1.9% for 2024. Their new heralded economic transition.

Consumer and business confidence has never been lower going back to the 1960s. The stock market had its worst trading session dating back to the 1930s. The credit markets and junk triple C bonds are starting to widen indicating stress at the lower income levels, and household, consumer, business, and builder expectations are plunging. Despite what Biden says, just like during Obama's administration, all the data indicates stagflation and recession are imminent. Regardless of the White House's alternate Orwellian reality, changing the definition of 'recession' will not nullify the fact that we are indeed in a recession.

Another lie Joe keeps promulgating is that he reduced the deficit by \$2 trillion when in fact our deficit has grown by \$2.78 trillion under his watch, the second largest deficit in American history. If there was a slight intermittent deficit reduction, it would have been because most of the emergency spending packages have expired, Trump's tax cuts increased federal revenues, and inflation boosted business revenues.

Biden also constantly repeats the lie that the U.S. economy has the best and lowest inflation in the world. However, a recent study from the San Francisco Fed found that U.S. core CPI was three times higher than all the OECD countries, specifically 6% versus 2%. This includes 37 nations in Europe, North America, and Asia, and all the G7 countries. Putin did not cause this; it was Biden's energy restrictions, tighter regulations, and cramming more money into Trump's V-shaped recovery that created higher demand and less supply which drove inflation. Powell then financed Biden's policies by buying bonds and increasing the money supply. They won't, but if they restored Trump's energy policies, they might mitigate the recession's intensity. Trump handed them a V-shaped recovery which they quickly and purposely destroyed.

Inflation is the highest it has been in 41 years and weekly average gas prices are at all-time highs. According to the Bureau of Labor Statistics, the June consumer price index (CPI) rose from 8.6% to 9.1% and the producers price index (PPI) from May rose 1% to 11.3% year to year. When PPI increases faster than CPI, this usually indicates higher inflation and layoffs ahead. Since Biden took office, inflation grew from 1.4% to 9.1%, 13% overall, and most economists believe real inflation is 19%. July's CPI index dropped slightly to 8.5% but is still at a 41 year high, yet Lyin' Biden Immediately and falsely claimed we had zero inflation.

Biden's policies have shorted us 1.5M barrels of oil a day, gas and heating oil prices have doubled, and the Progressives tell us to prepare for rolling blackouts. Good luck charging that \$70K Econoline electric

vehicle they are forcing you to purchase with your declining income. Hope you don't have an emergency or need to travel far. Instead of waiting two hours between charges, you'll be waiting two days.

Biden's anti-American policies have disrupted and annihilated our supply chains, providing him with another inflation excuse. He is using this self-inflicted inflation to again screw the American worker and honor his \$1.5B China bribe by lifting their tariffs. This excuse, however, does not hold water because Trump's 2018-2019 China tariffs caused zero inflation. (In TC's Build Back Better paper, he predicted the lifting of China's tariffs.)

To further the trainwreck, Biden and the Progressives are reviving the Build Back Better Bill. They claim they are reducing spending as they add \$840B in spending and \$739B in new taxes. The fascists are levying this tax on hard working Americans at a time when we have out of control inflation, the economy is heading into a Biden recession, and businesses are still struggling after COVID.

This insanity will be the final blow to small businesses, destroying 70% of our economy, producing massive unemployment, and decreasing tax revenues. They may finally achieve their goal of destroying our economy to usher in their Marxist redistribution society. Biden and the globalist are again putting the whip to the backs of American workers to teach them a lesson for voting for Trump. Progressives only pretend to care about people to gain power.

They want to bring back child tax credits and other welfare programs to buy more votes, subsidize the out-of-control inflation that their spending policies have caused, and make more people dependent on the Progressive party for their existence. Their tax and spend philosophy will shore up their aristocracy for a few years before inflation is completely out of control, the economy collapses, and they are able to gain full control of the country. Higher taxes, massive welfare programs, the Green New Deal, a carbon-free power grid, slowing job markets, and negative wage growth will lead to permanent 1% GDP, recession, and stagflation. Welcome to Obama's Cuba.

Billions of dollars are still gushing from the American Rescue Act causing inflation to continue rising. The money is going to places like horse tracks in Arizona, planting trees in New York, prisoners, and, best of all, every Japanese citizen gets \$1,400. The Washington Post reports that at least \$163B was stolen from the unemployment COVID Relief Fund and believes it's closer to \$400B. Still, the Progressives want more of your money; record high tax revenues just aren't enough for them. Just in case you have any money left, they are planning another \$840B in spending and \$739B in new tax hikes.

Passed by reconciliation, the \$739B Build Back Better Bill, Orwellianly renamed the "Inflation Reduction Act", targets small businesses and the middle and lower class. According to the Joint Committee on Taxation (JTC), in 2023, the bill will increase taxes by \$17B on earners making less than 200K, and by 2031, those earning below \$400K will bear 66% of the burden. The Committee to Unleash Prosperity claims it will eliminate 900,000 jobs, reduce GDP by 1.2%, and cost families another \$1,200 annually. This is in addition to the monthly \$717, \$8,604 annually, that Americans are presently paying caused by Biden's other spending.

We the people are also taxed through inflation when the aristocrats print money to pay for corrupt laws which empower and enrich them. According to the CBO, the bill will do nothing to reduce inflation, will add \$30B to the deficit in the first five years, and 90% of the imagined .3% deficit reduction is backloaded

to 2031. This bill is clearly a midterm election political payout to their progressive donors. When combined with the recently passed \$230B CHIPS bill, it will add another \$1T in inflationary tax and spending. The Progressives have now taxed and spent over \$3.8T since taking office 17 months ago.

Included is Janet Yellen's 15% corporate minimum tax, a globalist corporate power grab in which only the U.S. is participating. This will disincentivize capital gains carried interest investment, new job creation, supply side manufacturing, businesses from relocating back to the U.S., and makes U.S. companies less competitive overseas. Manufacturers are impacted the most, having their annual revenue reduced by 50%, or \$50 billion annually. Retailers, holding companies, information sectors, and other industries will average a 10% annual revenue reduction. Most of these increases will get passed onto consumers. Schumer's "Inflation Reduction Act" is a war on seniors and does exactly what he accused the Republicans of doing. It not only passes higher costs to seniors, but it taxes them disproportionately and cuts \$280 billion out of Medicare. It taxes and places price controls on pharmaceuticals, reducing lifesaving innovations, and puts an excise tax on gas, increasing retirees' energy costs.

The bill includes \$369B for energy and climate and \$300B in green loan guarantees. It gives \$60B for environmental justice initiatives, whatever the hell that means. It gives \$9B to the rich for EV tax credits, \$3 billion for climate justice, \$2.6B for coastal habitats, and \$1.5B to plant trees. It includes \$64B for Obama's ACA which will cost \$280 billion over 10 years. It contains \$21B in new energy taxes, including a 16.4 cent tax on each barrel of crude oil, increases lease rates by 500%, and drilling fees by 33%. Even though Europe has declared natural gas a clean energy that has significantly reduced greenhouse gases, this bill taxes natural gas \$6.5B annually which will significantly increase home heating costs. To implement their Marxist socialist agenda, they deny natural and economic science and lie to the American people.

It increases the IRS budget by a factor of 6, from \$12.5B to \$80B, adding 87,000 auditing agents, doubling their number. Both the JTC and Senate Finance committee have found that 90% of the audits performed and unreported income collected by the IRS will come from people making less than \$200,000 per year; less than 10% will come from people making \$500,000 or more, despite Joe's lie that nobody with income below \$400K will be affected. Their purpose is to target small businesses and people making less than \$200,000 a year. 97% of IRS bureaucrats contribute to the Democratic party and, like Lois Lerner, these agents will target their political opponents. Recently 70K IRS agents donated more than \$600,000 to the Democrat party and 157K agents will more than double those contributions to over \$1.2M.

Even though reconciliation rules are limited to legislation regarding budgetary concerns, the progressives have unlawfully buried their fascist, statutory legislation within the bill to overturn the court's West Virginia vs EPA decision. Without direction or legislative language, it illegally gives the EPA \$45M in statutory authority, \$18 million to regulate the generation and use of electricity's greenhouse gas emissions. This not only gives the EPA control of how electricity is produced but also controls how it is used by individuals. It includes \$5 million to enforce ESG reporting to make sure companies and individuals are compliant with ESG regulations. If not challenged, this illegal reconciliation statutory authority power grab will give EPA bureaucrats legislative power to rewrite environmental laws that regulate industries, homes, and individuals. It will unleash EPA woke bureaucrat regulators on Americans which will force our energy costs to skyrocket.

Using the UN climate model, climatologist Bjorn Lomborg found that the \$400B Green New Deal spending in the "Inflation Reduction Act" will only decrease global temperatures between .00028-.000009. In return, small business passthroughs and corporations get a \$53B and \$222B tax hike, respectively, senior retirement and government pensioners' 401Ks and IRAs get a \$74B tax hike, and everyone gets a \$250B prescription drug increase due to price controls. Just like government student loans increased tuition, Ford and other auto manufactures increased auto prices between \$6,500-\$8000 thanks to the greenie tax credits. Meanwhile, the EPA will receive a \$27B slush fund that rewards progressive donors who filter donations through endless bogus Solyndra-type companies that empower and enrich the fascist progressive machine.
